

## **Update 10/6/2022**

### **From Angelo**

I spoke to our insurance broker today, and she assured me that the owners on the first floor that were devastated will have insurance coverage for their condos. That means kitchens, bathrooms, flooring and window treatments etc. – everything except personal effects. Great news for owners on the first floor.

### **From Kathy**

Now that a week has passed and pictures are now available from Drones, airplanes, golf carts, I am moving our Ian damage pictures to the Owner Documents page along with the Daily Updates. This page is password protected.

<https://www.thesandarac.com> To see the owner's page, the password is manatee2018.

Go to the page and see what all is there. You will notice the Owner Directory. Luckily, Angelo had updated the directory in July, but there are changes since then. Please read your information and let me know of any changes.

### **Electric Update**

Please listen to the attached file that was circulated today regarding power. It was verified.

*Even in the darkness, I will look up and see the stars.*

Blessings,  
Kathy
